

Media Workshop, RADAR - What do we do Managing Resources with RADAR

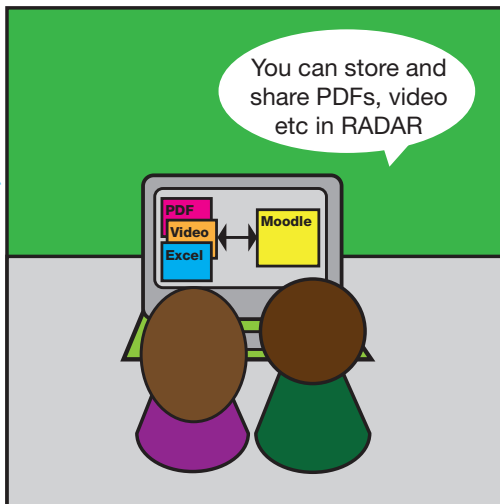

Daisy Longhorn is a Social Work lecturer in the Faculty of Health & Life Sciences. She has uploaded an identical referencing guide to all her Moodle Modules.

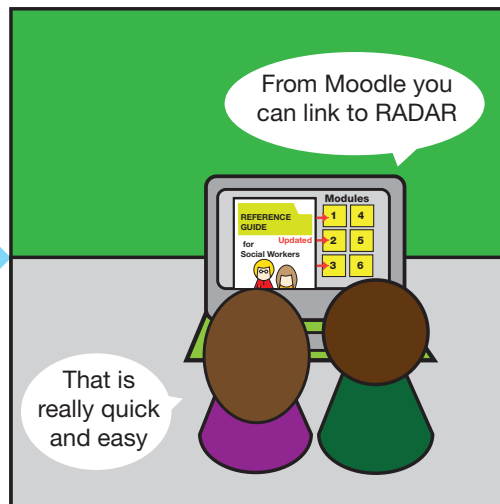

Daisy has updated the guide and would like to automatically be able to put this on to her modules. She has heard through a colleague that she can do this using RADAR.

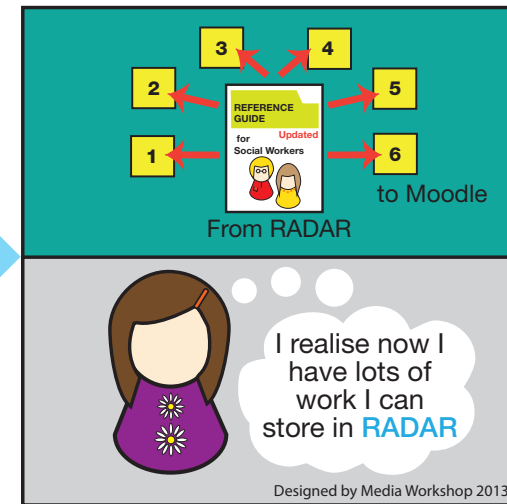

Daisy emailed Harry Holstein in Media Workshop to arrange a meeting.

RADAR is a central resource bank that is linked to Moodle.

Harry shows Daisy how to upload the Referencing Guide to RADAR and link to it from Moodle.

All of Daisy's 6 Moodle modules can now see the new version of the guide. This gave Daisy a really good idea...
