Dear John,

We have missed copy date for the Bookselling News for March, and the copy date for the April Bookselling News is 10 April. It will have to be the April issue so we could incorporate the short * list as the paper is not circulated to booksellers until the end of the first week in April. I have said in the second paragraph 'see photograph' I now discover, to my horror, that I have no pictures of the lady nor am I able to find a negative. A highly unlikely question, you don't have one do you? It may be worth-while getting it photographed again just for this?

As this article is so small it might be worth asking Ross Higgins if he feels it should go in the 'Notes and News' section which is the first thing of interest within the Bookselling News and therefore I would think the most likely to be read by booksellers, but I may be wrong, or RH may have a better idea.

I will be in touch with you again soon, as soon as I have heard from Jan P. and have got further with the Halls.

Love,

Marilyn

*
P.S. Actually - if copy date is 10th of the month - we could probably squeeze it into the March issue just - but it would mean working fast if it is possible!

P.P.S. Do much about with the "plug" - Those words were only a rough idea - & it may be better at the end.
