

Media Workshop - What do we do Innovation Storyboard

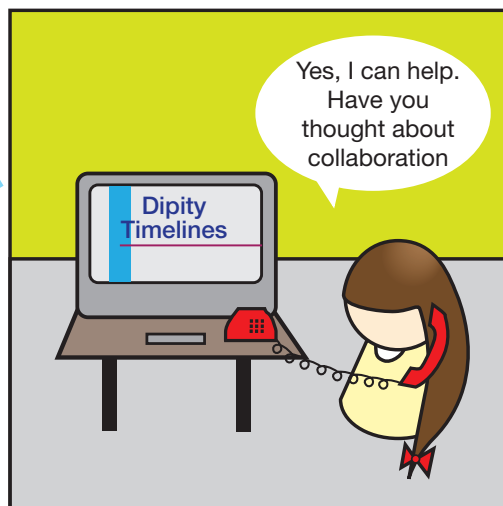

Angus Bull can be described as an early adopter.

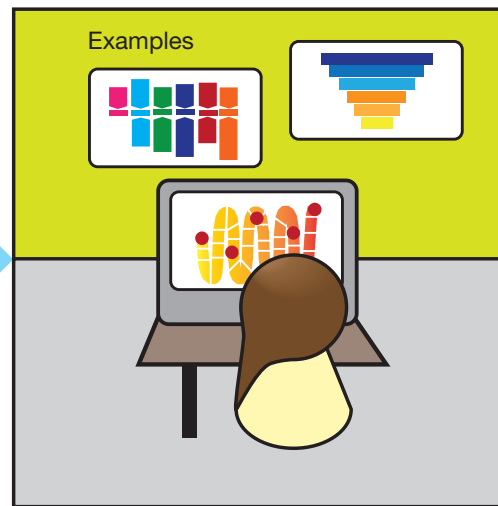

Staff in the Media Workshop regularly troubleshoot these technologies for Angus.

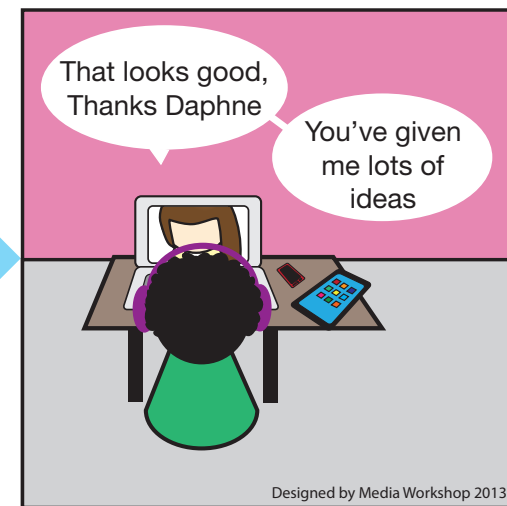

Angus has found yet another piece of software that he is keen to incorporate into his teaching.

He would like the Media Workshop to help him pilot the software with his students.

Daphne Dexter has produced a range of examples to help Angus see how he might use **Dipity** with his students.

An online meeting was arranged using **Wimba Classroom** with Angus to show him the examples.
