

Commissioning Skills and Competencies

How did you become involved in 'commissioning'?

Commissioning – a leadership task

- Working with partners to integrate services around the end user
- Moving from command and control to influencing and facilitation
- Communicating the local vision
- Cascading an understanding of the market across all partners, including local communities
- Securing effective engagement of people who use services
- Leading entrepreneurial thinking and service transformation

Role of commissioners

Commissioners play at least three roles:

- **Advocate for the patient or service user**
- **Advocate for communities**
- **Guardian of taxpayers' money**

Taken together they create dilemmas and trade offs – the essence of the role of commissioning.
