

Booker.

3 January 1972

Jan Pienkowski, Esq.

Dear Jan,

I enclose a photograph of the Booker Prize Trophy to remind you of your part in the designing of it four years ago!

The Trophy which we have cast each year and give to the winning author stands, as you will remember, at 25 inches. The Booker Directors now feel that they would like it scaled down to an overall height of 10 inches and redesigned in as much as they wish the bowl to be more spherical and less flat. Presumably this will mean bringing in the arms closer. Would you be prepared to undertake this task for us, please?

Very happy new year.

Yours,

Marilyn Edwards
