

## **Mahmoud**

I started studying in 2014 to reach my ambition. I graduated in 2015 and started working as a photography technician. I learned new things and worked on developing my skills. But between 2015 and 2016, I had a problem with my papers because I am a Palestinian from Gaza. I worked in the same place where I started and trained until 2018 with good experience and a decent salary. But they closed down, and I had added responsibilities and faced family problems in 2019. I struggled until the start of 2020. I applied for a new job, but I didn't get it because of my papers. I tried going abroad but faced the same problem because of my documents.
