New regulations for REF eligibility

HEFCE require journal & conference articles (with an ISSN) accepted for publication from 1st April 2016 to be open access. This guide for researchers will ensure you meet HEFCE’s conditions.

Glossary & links

OA website: port.ac.uk/research/openaccess
Contact: openaccess@port.ac.uk
Post-print: The full-text version of an article after peer-review changes. It does not typically include the publication-specific formatting, and is sometimes called the ‘author’s accepted manuscript’.
Embargo: Time delay before an article uploaded to Pure can become publicly visible.
APC: Article Processing Charge - a fee paid to the publisher to permit instant open access.
Pure login: pure.port.ac.uk/admin
Sherpa Romeo website: sherpa.ac.uk/romeo/

1. Use the Sherpa Romeo website to look up the embargo period that the journal imposes on the post-print version of your article.
2. For articles likely to be submitted to REF panels A & B this embargo must be 12 months or less. For panels C & D it must be 24 months or less.

Please contact openaccess@port.ac.uk for advice.

Within 3 months of acceptance, upload to Pure:-

Bibliographic information, e.g. authors, title, journal, abstract. This will become publicly visible immediately.

The post-print of the article. Unless published, the article will not be publicly visible yet.

When full details are available, update Pure:-

Add additional bibliographic information, e.g. page numbers, DOI & publication date.

Set the embargo period (imposed by the publisher) on the post-print to ensure it becomes publicly visible when the embargo expires.

Within 3 months of acceptance, upload to Pure:-

Bibliographic information, e.g. authors, title, journal, abstract. This will become publicly visible immediately.

The post-print of the article. Unless published, the article will not be publicly visible yet.

When full details are available, update Pure:-

Add additional bibliographic information, e.g. page numbers,DOI & publication date.

Many publishers let you replace the post-print with the publisher’s version.
