

Becoming British application

By Diana Puta

Background

As the results of Brexit unravel, more migrants are looking to obtain the British citizenship. The journey is lengthy and consists of many paths.

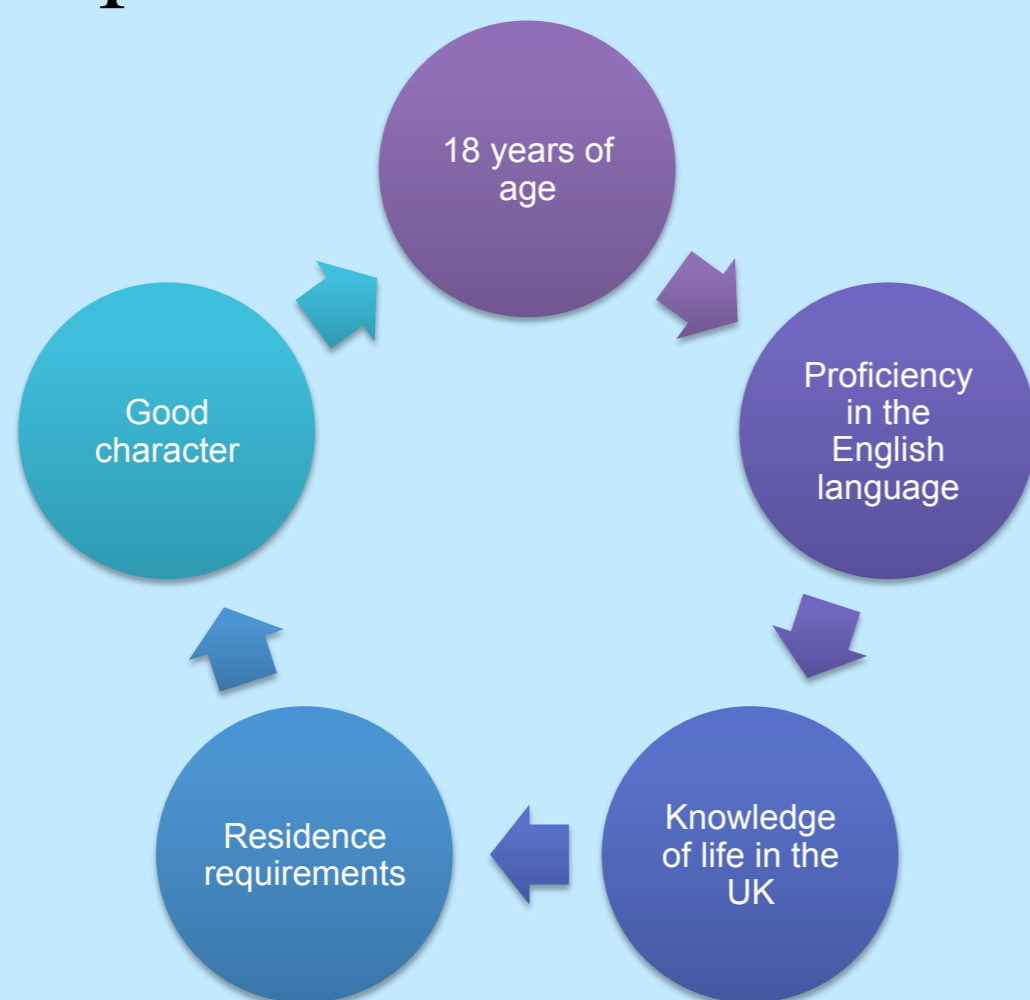

Applications for British citizenship by EU nationals

In the past many did not view this process as mandatory, due to the psychological stability UK provided to migrants at the time. It is now a battle and a journey full of hardship to achieve the stratification of belonging.

Research

Five basic requirements:

eLearning

accessible

multi-device

fast delivery

bespoke

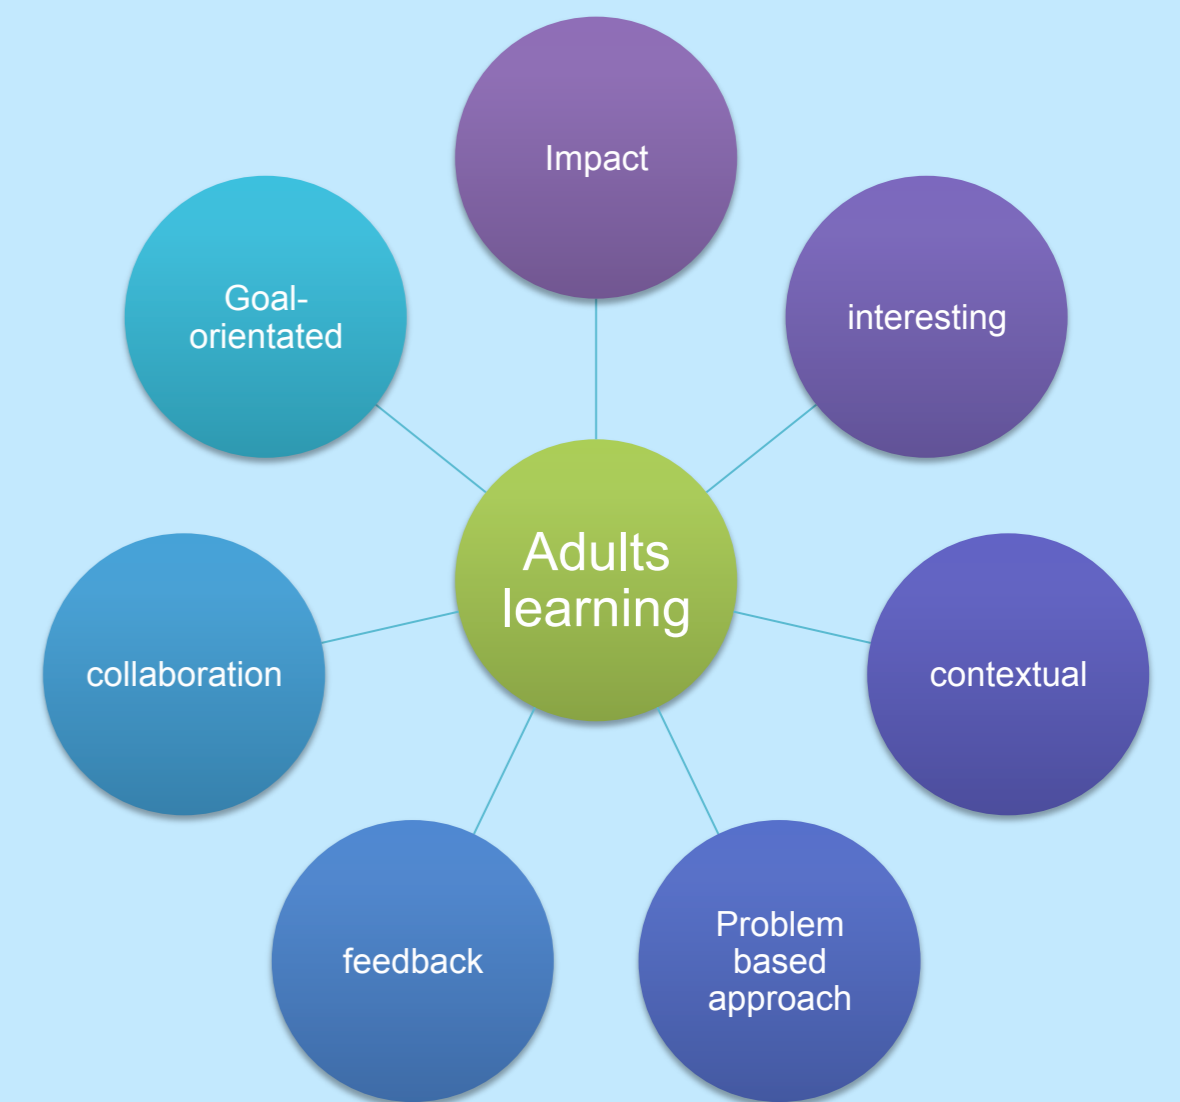

effective

low cost

Behaviourism

Cognitivism

Constructivism

Results

Will offer a more **holistic** solution to what the journey of applying to become a citizen involves, but also utilizes some of the principle in decision making to suggest to the user areas they should focus on and improve.

- ✓ Over 250 questions
- ✓ Tailored learning
- ✓ 10 random tests
- ✓ Reading, listening, vocabulary and grammar activities
- ✓ Relevant links

Conclusion

The creation of the application has been a success.

- All users were satisfied with the overall application
- 90% of users were satisfied the interactive activities and 80% found the activities to be effective
- Most users agreed the information for each section was sufficient
- All users agreed they did not encounter similar applications.
