

Following on from the success of the GCC Workplace challenge the LR Communications team thought a series of walks would be a good continuation of the theme.

LUNCHTIME WALKS

The 40 minute Hill Ascent

John Henry Brookes Building - Headington Hill Hall Park -
Morrell Avenue

Route is quite hilly and can be a bit muddy (especially in Headington Hill Hall Park). Full walk 1.93 miles (3.10 km)

Starting with the **JHB** building behind you

1. Turn left along the A420 towards **HHH**
2. Cross over the road and head down **Pullens Lane**
3. Turn left onto **Cuckoo Lane**
4. Turn left through a gateway into **Headington Hill Hall Park**
5. Follow the track ahead until you reach a tarmac path. You can turn left or right here but I've chosen to go right
6. Keep on the tarmac path until you reach a fork just before a gateway. If the weather is bad keep straight ahead and pass out of the park and then head right down to the traffic lights (back on the A420 again). If the weather is OK you can take the right fork down a wooded track to another gate which will bring you out at the traffic lights
7. Cross over at the traffic lights on **Headington Road** and then follow the path as it bears round to the left following the railings at the bottom of South Park
8. Head up **Morrell Avenue** until you reach **Warneford Lane**
9. You can either take the path left through the gateway across the top end of South Park or you can head along **Warneford Lane** (9a)
10. Turn left into **Cheney Lane**
11. At the gateway either continue straight ahead (if you have come through the park) or turn right to cross **Cheney Lane** and then follow the path across **Cheney Playing Field** until you reach the back of the JHB building

With thanks to Abi Ball who walked the routes, took the photos and put the directions together
