

Getting Started in Moodle: Student Guide

Full Text

What will my Moodle course look like?

Select the Moodle course you would like to view by clicking on its title.

The layout of your Moodle course will depend on your faculty, programme, and module.

There is quite a lot of variety. Yet, there are some standard features.

Moodle courses are generally displayed in 2 columns.

The main column contains all course activities and resources. The top of the course page will include important information and the Announcements forum. You should check the Announcements forum regularly to make sure that you receive important information and updates from your instructor.

Most blocks contain further course information or university-wide information and links. Some instructors may add blocks containing their contact details or a block with links to all course activities.

The hamburger icon on the top left corner of the course will open the navigation tray. Use the navigation tray to switch between different sections of the course, view your grades, and to return to your dashboard.
