Dear Jan,

You will already have had copy for the five items agreed on yesterday. One thing we did not decide on was the question of a colophon which, for example, could be used by Jill on publicity hand outs etc. etc. Could you give this a thought.

Could you let us have quotations for twelve aluminium (or whatever you think best) copies of the lady and one hundred copies of the lady in plastic or plaster - whatever you think is best. Would you also let us know your supervisory charge. I hope that this will now be less than the £200 itemised on your suggested scale of fees since you won't actually have had to have the statue made.

So far as all the printed matter is concerned would you or your office be kind enough to liaise with Tony Colwell and I will be asking him for estimates on this.

If I do not hear from you before you leave, I hope you have a splendid ski.

With best wishes,

Yours sincerely,

(J.N. Murphy)
