

# Make your own Planter

## Required resources

- A large 4-pint milk bottle
- Acrylic paints and brushes
- Sharp scissors
- Adult help

## Instructions

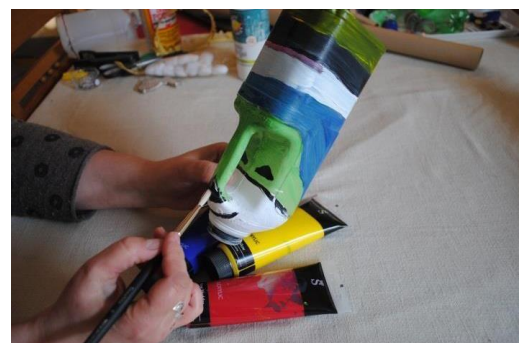

1) Cut the bottom of the bottle as shown.

2) Remove the lid, make drainage holes in the lid of the bottle and replace lid.

3) Decorate to your theme or topic.

4) Your planter is ready to be filled.

**BUSTA TIP:** The planter looks great with the mini tumbling tomato variety growing down out of them. Herbs are also a great idea.
