

Make your own Pong Pom Pom

Required resources

- Card from a recycled cereal box
- Wool (why not unravel an old woollen jumper or cardigan – ask an adult first!)
- Scissors
- Compass or something circular to draw around (a cup and eggcup are good)

Instructions

1) Draw around a cup and then, making sure it is at the centre, draw around an eggcup (as shown). Do this twice to make two templates for your pompom Pong.

2) Using scissors cut around both of the large 'cup' circles.

3) Cut out both of the 'eggcup' circles to create a hole in the middle of your templates as shown.

- 4) Put the circles together and wind wool around them, making sure you keep it neat and even. You can change colours as often as you wish- just start a new piece of wool and continue winding.

- 5) Keep going until you are finding it difficult to push wool through the middle of the hole.

- 6) Use your scissors to cut around the outside of the circle (as shown) cutting through the layers of wool in between the cardboard beneath until you have cut all the way around.

- 7) Take a length of wool and squeeze it between the two pieces of card, wrap it all the way around and tie a knot. This will hold the wool together so do several knots to hold it firmly.

- 8) Using your scissors snip through the card and pull it away from the wool ball.

- 9) Fluff up the ball and snip away any loose wool threads. Your Pong is ready – keep him in your rucksack with Busta!
